

The Anterior Single Tooth Site... Maximizing Bone Volume and Soft-Tissue Contours

Online Webinar - CDEWorld

Wednesday, June 17, 2015

Time: 7:00-8:00pm EST

CE CREDIT HOURS: 1

TUITION: Complimentary

S P E A K E R

Alan E. Fetner, DMD

Dr. Alan Fetner has been a practicing periodontist in Jacksonville, Florida since 1988. He is in practice with his wife, Dr. Mary Hartigan, who is also a periodontist. Alan received his dental degree in 1979 from the University of Florida College of Dentistry and his perio training also from the University of Florida in 1985. Alan was a general dentist for 5 years before becoming a periodontist. For the past 30 years, he has maintained a part time faculty position in the Department of Periodontics at the University of Florida and the last 20 years with Florida State College Hygiene School. He is currently involved in dental research with emphasis on periodontal / implant relationships.

L E A R N I N G O B J E C T I V E S

- Discuss clinical methods to manage sites for future implants.
- Discuss hard-tissue volume preservation of extraction sites.
- Discuss provisional methods to enhance soft-tissue contours.
- Evaluate sites to accommodate differences in anatomy and outline clinical techniques.
